If you want to take part in these events but require more time to pay please get in touch to discuss.
We are now asking for payments at time of booking because we have been let down a lot this year by cancellations at short notice where events have not been paid for. This usually leaves us with no time to fill spaces with suitable exhibitors and consequently a shortfall in income to cover costs and pay ourselves something for the work involved.

Full refunds will be given for cancellations made up to two months before event date. No refunds will be made after this.

In the unlikely event that we are forced to cancel event for any reason beyond our control such as weather or an emergency, we cannot make refunds. Often, we may be guided by a venue's decision to close due to weather warnings. In this instance, it is beyond our control.

If we decide to cancel for any other reason (ie for any reason within our control) we will make full refunds or offer to transfer/rebook the same event or to another one.

Hope you can join us.
